DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

The species are categorized by a set of seven figures; the first figure being either figure 1A or 1B, the second figure being either figure 2A or 2B, the third figure being either figure 4A, 4B or 4C, the fourth figure being either figure 5A, 5B or 5C, the fifth figure being one of figures 6A-6E, the sixth figure being either figure 7A or 7B, the eighth figure being one of figures 8A-F. Therefore, a species is characterized by the set of figures (one of 1A or 1B, one of 2A or 2B, one of 4A, 4B or 4C, one of 5A, 5B or 5C, one from 6A-6E, one of 7A or 7B, one from 8A-8F). The following are examples of different species:

Species is characterized by figures (1A, 2B, 4C, 5B, 6D, 7A and 8D)

Species is characterized by figures (1B, 2A, 4A, 5B, 6B, 7B and 8A)

Art Unit: 3739

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
